## SCIENTIA

Scientia was organized to foster an interest in the study of Natural Science among students, to bring it on as high a cultural plane as other branches of learning, to encourage a greater interest in spiritual matters, and to promote improvement of equipment and facilities in the Science department.

The membership of Scientia is composed of all students interested in science—premedical students, home economic students, and science majors. Others are eligible for special membership. Professor Hoen, head of the Science Department is the faculty adviser. At its regular meetings demonstrations and lectures along lines of scientific interest are given by both student and guest participants. Films are shown frequently and an annual "Open House" welcomes the entire campus population to help celebrate the spirit of "Scientia". Other entertainments not confined to classrooms are also sponsored by the club.

## LANGUAGE CLUBS

The foreign language clubs, composed of advanced students, and sponsored by the teachers of those departments, have been formed for the purpose of broadening our minds and adding to our interest in other people, customs, and languages.

*Le Cercle Français*, under the direction of Mrs. Ella Iden-Edwards, has given numerous informal programs in an effort to encourage its members in an understanding and love of the language and French people.

*El Circulo Castellano*, under Miss Granbois' supervision affords many opportunities for the mastery of Spanish. Those who have gone forth to work in Spanish countries can testify to the value of the social hours spent in the clubs where English is forgotten and the understanding of Spanish is a necessity.

This year the *Deutscher Sprachverein* was organized for the benefit of the ever growing number of German linguists. Mutual interest on the part of the members, in a practical way, has led to the success of the club in presenting programs for the purpose of acquainting the students with German people and their customs.

## THE ΤΥΠΟΘΗΤΑΕ CLUB

The Typothetae Club was established at Emmanuel Missionary College to provide an organization in which printers may meet in a social way, and at the same time broaden their knowledge of the unlimited field of printing. The monthly meetings prove inspirational and instructive. The club membership includes all who work in the College Press, and those who are in the printing classes.

### Favorite Subjects Saved for the Summer Vacation

"I save my favorite subjects for the summer," said a wide-awake student the other day. "Then I can pursue them at my leisure under the guidance of the Home Study Institute and return to college in the fall with extra credits that are very useful. I couldn't enjoy the vacation without some study to occupy my leisure minutes."

The HOME STUDY INSTITUTE offers a full line of college and academic studies. Its work is accredited in all our own educational institutions and in many others where its high character is known. Tell us of your needs at once and let us help you get started. The enrollment sent in to us before you leave college, or immediately after you reach home, will insure your receiving the lessons and textbooks in time to start your vacation right. Payment may be made in monthly installments.
